

Andrew L. Valesano, MD, PhD

avalesan@umich.edu | May 2024

Education and Medical Training

Resident Physician

June 2023 – June 2027

Michigan Medicine, Ann Arbor, MI
Anatomic and Clinical Pathology

Medical Scientist Training Program

August 2016 – May 2023

University of Michigan Medical School, Ann Arbor, MI
M.D., Graduation with Distinction
Ph.D. in Cellular and Molecular Biology

Hope College, Holland, MI

August 2011 - May 2015

Bachelor of Science in Biology, *summa cum laude*

Research Experience

Postdoctoral Researcher

June 2023 – June 2027

University of Michigan, Department of Pathology

- **Machine Learning for Precancerous Lesions:** Developed weakly-supervised models with whole-slide imaging data to detect incidental serous tubal intraepithelial carcinoma in fallopian tube resections
- **Methylation Profiling for Hematolymphoid Neoplasms:** Generated methylation state data and applied random forest models to distinguish low and high-grade EBV-related lymphoproliferative disorders
- **Genomics of Non-Langerhans Histiocytoses:** Led projects using comprehensive molecular profiling to identify drivers of Rosai-Dorfman disease and adult-onset xanthogranuloma

Ph.D. Student, Postdoctoral Researcher

August 2018 – Sept. 2021

University of Michigan, Department of Microbiology and Immunology
Laboratory of Adam Luring, M.D., Ph.D.

Program in Cellular and Molecular Biology

Thesis: “Using Intrahost Genetic Diversity to Understand RNA Virus Evolution and Transmission”

- **RNA Virus Genomics:** Developed new methods to characterize within-patient genetic heterogeneity of influenza B virus, poliovirus, and SARS-CoV-2 and quantify human-to-human transmission bottlenecks in

patient cohorts (Valesano et al. *J. Virol*, Valesano et al. *PLoS Pathogens*, Valesano et al. *Cell Host and Microbe*, Dimcheff et al. *J. Infect. Dis.*)

- **COVID-19 Genomic Surveillance:** Led implementation of SARS-CoV-2 genomic surveillance to track novel variants (Alpert et al. *Cell*), study transmission patterns among universities (Valesano et al. *OFID*), enhance hospital monoclonal antibody stewardship (Pogue et al. *OFID*), and support large-scale vaccine effectiveness observational studies (see Consortium Papers – CDC IVY Network); contributions included high-throughput sequencing, bioinformatics, quality control, data management, phylogenetics, and public data sharing of 6,000+ viral whole genome sequences

- **Infectious Diseases Case Studies:** Used genomics to investigate one of the first documented cases of prolonged COVID-19 in an immunocompromised patient (Baang et al. *J. Infect. Dis.*) and the first case of donor-derived infection of SARS-CoV-2 via lung transplantation (Kaul et al. *Am. J. Transplant*)

- **Genomic Epidemiology:** Partnered with public health departments to mitigate local viral outbreaks by integrating real-time genomic sequencing with traditional epidemiology (Martin et al. *medRxiv*); contributions included implementation of rapid Nanopore sequencing pipeline, phylogenetic interpretation of transmission clusters, and timely communication of findings to complement contact tracing

- **Global Health:** Led a project to sequence the oral polio vaccine variants from participants in a field trial in Bangladesh (Valesano et al., *Cell Host and Microbe*), part of an international collaboration supported by the Bill & Melinda Gates Foundation

- **Publications:** 5 first/co-first author papers and 12 papers as co-author

Rotating Graduate Student Researcher

June 2018 – August 2018

University of Michigan, Department of Microbiology and Immunology
Laboratory of Evan Snitkin, Ph.D.

- Used computational bacterial genomics to study the transmission patterns of *Clostridioides difficile*
- Evaluated geographical clustering within and across three major academic medical centers
- Wrote programming scripts in R, Python, and UNIX for analysis on the UM supercomputer cluster

Rotating Graduate Student Researcher

July 2017 – Sept. 2017

University of Michigan, Department of Microbiology and Immunology
Laboratory of Adam Luring, M.D., Ph.D.

- Used molecular methods to assess effect of poliovirus polymerase mutations on viral growth and fidelity
- Wrote script with k-mer approach to design primers for virus whole-genome amplification

Undergraduate Researcher

January 2012 – May 2015

Hope College, Department of Biology, Holland, MI
Laboratory of Aaron Best, Ph.D.

- Transcriptome profiling to investigate transcription regulation in *Giardia lamblia* trophozoites
- Computational genomic-metabolic modeling of metabolic networks in *Shewanella* bacteria

Work Experience

Research Data Analyst

October 2022 - Present

University of Michigan, Microbiology and Immunology, Ann Arbor, MI

Laboratory of Adam Luring, M.D., Ph.D.

- Contribute to the Michigan Sequencing Academic Partnership for Public Health Innovation and Response (MI-SAPPHIRE) project, an initiative of the CDC and MDHHS to expand statewide pathogen sequencing
- Develop bioinformatic pipelines to visualize genomic surveillance data for COVID-19 and influenza viruses and integrate phylogenetics with fine-scale epidemiologic metadata

Research Technician

May 2015 – June 2016

University of Michigan, Department of Neurology, Ann Arbor, MI

Laboratory of Eva Feldman, M.D., Ph.D.

- Studied the role of neuronal mitochondrial dysfunction in diabetic neuropathy
- Used live-cell confocal microscopy to quantify mitochondrial trafficking in sensory neurons
- Published work in a peer-reviewed article as a co-author

Containment of a multi-index B.1.1.7 outbreak on a university campus through a genomically-informed public health response. medRxiv 2022; doi: <https://doi.org/10.1101/2022.01.04.22268758>.

Valesano AL, Lee EM. Case of Hepatopulmonary Syndrome. Society of Thoracic Radiology, Thoracic Case of the Month. August 2022.

Research Presentations

“Sudden Death Due to Gallbladder Perforation.”

Valesano AL, Snyder AM, Wilson AM.

Poster presentation at Advances in Forensic Medicine and Pathology. Ann Arbor, Michigan, May 16, 2024.

“Investigating sources of hospital-acquired influenza infection in two seasons”

Wan T, Luring AS, **Valesano AL**, Fitzsimmons WJ, Bendall EE, Kaye KS, Petrie JG.

Poster presentation at OPTIONS XI for the Control of Influenza. Belfast, Northern Ireland, September 26, 2022.

“What Can Genome Sequencing Tell Us About RNA Virus Evolution and Spread?”

Valesano AL.

Invited seminar at the Hope College Department of Biology, Holland, MI, 2021.

“SARS-CoV-2 Genomic Surveillance Reveals Little Spread Between a Large University Campus and the Surrounding Community”

Valesano AL, Fitzsimmons WJ, Blair CN, Woods RJ, Gilbert J, Rudnik D, Mortenson L, Petrie JG, Martin ET, Luring AS.

Poster presentation at IDWeek 2021 (virtual conference).

Poster presentation at Virus Genomics and Evolution 2021 (virtual conference).

“SARS-CoV-2 Replication and Evolution in an Immunocompromised Patient”

Valesano AL, Baang JH, Smith C, Mirabelli C, Manthei DM, Bachman M, Wobus CE, Adams M, Washer L, Martin ET, Luring AS.

Oral presentation at the University of Michigan MSTP Annual Retreat 2021 (virtual conference).

“Limited intrahost diversity and convergent evolution within hosts complicate transmission inference for SARS-CoV-2”

Valesano AL, Rumfelt KE, Dimcheff DE, Blair CN, Fitzsimmons WJ, Petrie JG, Martin ET, Luring AS.

Oral presentation at the American Society for Virology General Meeting, 2021 (virtual conference).

Poster presentation at the CMB Spring Symposium 2021 (virtual conference).

“Genomic Epidemiology of SARS-CoV-2 at the University of Michigan in Fall 2020”

Valesano AL, William J. Fitzsimmons, Christopher N. Blair, Robert J. Woods, Joshua G. Petrie, Emily T. Martin, Adam S. Luring.

Oral presentation at the University of Michigan Internal Medicine Annual Research Symposium, 2021 (virtual conference).

“Evolutionary dynamics of type 2 oral polio vaccine in primary recipients and household contacts”

Valesano AL, Taniuchi M, Fitzsimmons WJ, Islam MO, Ahmed T, Zaman K, Haque R, Wong W, Famulare M, Luring AS.

Invited oral presentation at the Institute for Disease Modeling, Bellevue, WA, 2020.

Invited oral presentation at the University of Virginia, Charlottesville, VA, 2019.

“Within and Between-Host Evolution of Influenza B Virus in a Household Cohort”

Valesano AL, Fitzsimmons WJ, Petrie JG, Monto AS, Martin ET, and Luring AS.

Oral presentation at the American Society for Virology Annual Meeting, Minneapolis, MN, 2019.

Poster at the CMB Spring Symposium, Ann Arbor, MI, 2019.

“Transcriptome Profiling of the Life Cycle of *Giardia lamblia* Using RNA-seq”

Valesano AL and Best AA.

Poster at the American Society for Microbiology General Meeting, Boston, MA, 2014.

Poster at the Beckman Symposium, Irvine, CA, 2014.

“Comparative Analysis of 26 Genome-Scale Metabolic Models of the Genus *Shewanella*”

Valesano AL, Eguluz ME, and Best AA.

Poster at the American Society for Microbiology General Meeting, Denver, CO, 2013.

Poster at the Midstates Consortium for Math and Science, St. Louis, MO 2013.

Activities and Service

MedConnect Program Volunteer

June 2020 – August 2020

University of Michigan Medical School, Ann Arbor, MI

- Program designed to address social isolation among admitted patients during the COVID-19 pandemic
- Coordinated with medical social workers who identified patients in need of social support by phone call
- Called patients >1 time per week for 30 minutes for social and emotional support
- Followed up with social work for patients with more intensive needs

Student Advising Committee, Program in Cellular and Molecular Biology

August 2019 – May 2021

University of Michigan Medical School, Ann Arbor, MI

- Served as a student academic advisor for graduate students in the Cellular and Molecular Biology program
- Held regular advising sessions for selecting coursework and preparing for comprehensive examinations

High School Student Mentor, Doctors of Tomorrow Program

August 2016 – May 2017

University of Michigan Medical School, Ann Arbor, MI

- Participated in Doctors of Tomorrow, a program designed to prepare underrepresented communities for future careers in medicine
- Mentored students from Cass Technical High School in Detroit, Michigan on a weekly basis

- Led a small group of students conducting a research project on health disparities

Teaching Experience

Assistant Instructor

September 2023 – December 2023

University of Michigan, Department of Pathology
Translational Pathology 862

Graduate Student Instructor

January 2020 – April 2020

University of Michigan, Department of Microbiology and Immunology

- GSI for one semester of “MICROBIOL 405: Introduction to Microbiology” for a class of 90 students
- Held one-hour discussion sections twice weekly
- Developed original review materials for review sessions

Honors and Awards

Dean’s Award for Research Excellence, University of Michigan Medical School	2023
Academic Recognition Award, University of Michigan Medical School	2023
Graduation with Distinction, University of Michigan Medical School	2023
Graduation with Distinction in Research, University of Michigan Medical School	2023
American Society for Virology Student Registration Award	2021
Cellular and Molecular Biology Graduate Fellowship, University of Michigan	2019
Patterson Memorial Prize in Biology, Hope College	2015
Sigma Xi Undergraduate Research Award, Hope College	2015
Phi Beta Kappa, Hope College	2015
Barry M. Goldwater Scholarship	2014
Arnold and Mabel Beckman Research Scholarship, Hope College	2013
American Society for Microbiology Undergraduate Research Fellowship	2013
American Society for Microbiology Student Travel Grant	2013

Additional Skills and Training

Supervised and Unsupervised Machine Learning

2021

Summer Institute in Statistics for Big Data, University of Washington

Topics: Regression, classification, decision trees, neural networks, clustering, dimensionality reduction

Evaluation of Biomarkers and Risk Models

2021

Summer Institute in Statistics for Clinical and Epidemiologic Research, University of Washington

Topics: Prognostic and predictive biomarkers, calibration and discrimination, ROC curves

Spatial Statistics for Epidemiology

2020

Summer Institute in Statistics and Modeling in Infectious Diseases, University of Washington

Topics: RMarkdown, geographic mapping and regression

Reconstructing Transmission with Genomic Data

2020

Summer Institute in Statistics and Modeling in Infectious Diseases, University of Washington

Topics: Bayesian and maximum-likelihood inference of transmission networks

Model-Based Statistical Inference in Ecology

2018

Ecology and Evolutionary Biology 480, University of Michigan

Topics: R, regression models, maximum likelihood, Bayesian statistics
